## Re-Strainer (In-Line-Strainer) $400 \boldsymbol{\mu m}$ - Sterile

## Specification

Catalog No.: 43-75400-40
Strainer color
Lot No. / EXP
green-transparent
Quantity
Mesh material
on bag, top
$5 \times 4$ devices, sterile (radiation)
PET precision woven monofilaments
Housing material
PP
Screw cap Luer-lock-port for syringe or tube connection
Outlet
Stability
Storage
Luer-lock-port
Isopropanol, cell lysis buffers
Room Temperature

## Component Description

The Re-Strainer is a filtration device for high volumes of liquid to exclude or concentrate particles from liquids with the possibility of particle recovery. The 6 ml recovery reservoir can be accessed by unscrewing the cap. The Re-Strainer has two female luer-lock-ports.

These ports can be used to connect several Re-Strainer to a filter cascade (male to male luer-lock connector) or integrate the Re-Strainer as an in-line-strainer via luer-lock tube adaptor

The mesh is an integrated part of the housing to give the device maximum mechanical stability.

## Warning and Limitations

The product is for research and development only, not for diagnostic or therapeutic use.
